Learning and assessment

An Apprenticeship is a job with an accompanying skills development programme. It allows the apprentice to gain technical knowledge and real practical experience, along with functional and personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job training and the opportunity to practice and embed new skills in a real work context.

Programme duration

This is dependent upon candidate's individual circumstances but generally the programme takes between 12 – 18 months to complete.

Entry requirements

Candidates must be able to demonstrate an ability equivalent to or exceeding level 2 in English and Mathematics, and have significant experience of working at a middle management level. Typically applicants have achieved certificates or diplomas, GCSEs or A levels. We would require a pre-course interview to discuss this programme and to establish that this is suitable for the candidate.

Programme start date

We don't have set enrolment periods so candidates are able to begin the programme at a time that best suits them and their employer.

Progression

Higher apprentices, with support and opportunities in the workplace, can progress onto:

- A range of management and other professional qualifications at level 6 and above
- Higher education to undertake management, business or other qualifications, including Degrees or Masters in Management & Leadership, Business and Business Management
- Further employment opportunities within their current job role/alternative job roles
